This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A novel database for automatic processing of Persian handwritten bank checks
- Database includes images of filled forms and checks with signatures
- Ground truth allows evaluation of segmentation and recognition of check fields
- Forged signatures allow evaluation of signature verification with skilled forgeries
