

## Accepted Manuscript

Instance Cloned Extreme Learning Machine

Yongshan Zhang, Jia Wu, Chuan Zhou, Zhihua Cai

PII: S0031-3203(17)30099-7  
DOI: [10.1016/j.patcog.2017.02.036](https://doi.org/10.1016/j.patcog.2017.02.036)  
Reference: PR 6073

To appear in: *Pattern Recognition*

Received date: 6 May 2016  
Revised date: 4 January 2017  
Accepted date: 28 February 2017

Please cite this article as: Yongshan Zhang, Jia Wu, Chuan Zhou, Zhihua Cai, Instance Cloned Extreme Learning Machine, *Pattern Recognition* (2017), doi: [10.1016/j.patcog.2017.02.036](https://doi.org/10.1016/j.patcog.2017.02.036)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Instance cloning technique is used for improving Extreme Learning Machine.
- The proposed method is an effective local learning method for classification problems.
- We analyze the sensitivity of two key parameters in the proposed method.
- Experimental results on a large number of datasets demonstrate the algorithm performance.
