Generic Performance Measure for Multiclass-Classifiers

Thomas Kautz, Bjoern M. Eskofier, Cristian F. Pasluosta

PII: S0031-3203(17)30107-3
DOI: 10.1016/j.patcog.2017.03.008
Reference: PR 6081

To appear in: *Pattern Recognition*

Received date: 24 May 2016
Revised date: 2 March 2017
Accepted date: 4 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Generic, compact and meaningful performance measure for arbitrary classifiers
- Includes confidence indicators in interval [0; 1]
- Robust towards class imbalance, sensitive towards class separation
- Demo implementation available
