Graph edit distance contest 2016: Results and future challenges

Zeina Abu-Aisheh, Benoit Gaüzere, Sébastien Bougleux,
Jean-Yves Ramel, Luc Brun, Romain Raveaux, Pierre Héroux,
Sébastien Adam

PII: S0167-8655(17)30369-0
DOI: [10.1016/j.patrec.2017.10.007](https://doi.org/10.1016/j.patrec.2017.10.007)
Reference: PATREC 6961

To appear in: *Pattern Recognition Letters*

Received date: 8 April 2017
Revised date: 3 August 2017
Accepted date: 7 October 2017

Please cite this article as: Zeina Abu-Aisheh, Benoit Gaüzere, Sébastien Bougleux, Jean-Yves Ramel, Luc Brun, Romain Raveaux, Pierre Héroux, Sébastien Adam, Graph edit distance contest 2016: Results and future challenges, *Pattern Recognition Letters* (2017), doi: [10.1016/j.patrec.2017.10.007](https://doi.org/10.1016/j.patrec.2017.10.007)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The context of Graph Edit Distance Contest (GDC), organized during ICPR2016, is presented
- Eight methods from three research groups are evaluated
- The evaluation Metrics, methods and datasets of GDC are described in detail
- A cristal clear picture of the accuracy and speed of each method is provided
- Future challenges and possible tracks in graph edit distance are highlighted
