Research Patterns and Trends in Software Effort Estimation

Sumeet Kaur Sehra, Yadwinder Singh Brar, Navdeep Kaur,
Sukhjot Singh Sehra

PII: S0950-5849(17)30431-7
DOI: [10.1016/j.infsof.2017.06.002](https://doi.org/10.1016/j.infsof.2017.06.002)
Reference: INF SOF 5836

To appear in: *Information and Software Technology*

Received date: 14 August 2016
Revised date: 23 March 2017
Accepted date: 7 June 2017

Please cite this article as: Sumeet Kaur Sehra, Yadwinder Singh Brar, Navdeep Kaur, Sukhjot Singh Sehra, Research Patterns and Trends in Software Effort Estimation, *Information and Software Technology* (2017), doi: [10.1016/j.infsof.2017.06.002](https://doi.org/10.1016/j.infsof.2017.06.002)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- This study identified research trends prevailing in software effort estimation literature.
- Latent Dirichlet Allocation (LDA) was applied to the corpus of 1178 articles.
- This study established the semantic mapping between research patterns and trends.
