Article highlights

- Overall and detail information about the OntoFarm ontologies and their reference alignments.
- Summary of feedback on usage, benefits and shortcomings of the OntoFarm collection after ten years of the initial launch of the collection.
- Performed literature analysis shows that OntoFarm marked significant impact within many semantic web subfields, and also made an important footprint in European, international and national research projects.
- The survey results confirm that the initial requirements on OntoFarm had been well chosen and that OntoFarm fills well its role of experimental ontology collection.
- Collected suggestions raised from the survey will be leveraged to further improve the usability of the collection.
