Title: Fluorescent Detection of Dipicolinic Acid as a Biomarker of Bacterial Spores using Lanthanide-Chelated Gold Nanoparticles

Author: Mert Donmez M. Deniz Yilmaz Benan Kilbas

PII: S0304-3894(16)31032-9
DOI: <http://dx.doi.org/doi:10.1016/j.jhazmat.2016.11.030>
Reference: HAZMAT 18184

To appear in: *Journal of Hazardous Materials*

Received date: 23-6-2016
Revised date: 5-10-2016
Accepted date: 9-11-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fluorescent Detection of Dipicolinic Acid as a Biomarker of Bacterial Spores using Lanthanide-Chelated Gold Nanoparticles
