

## Accepted Manuscript

Title: Modelling the removal of volatile pollutants under transient conditions in a two-stage bioreactor using artificial neural networks

Author: M. Estefanía López Eldon R. Rene Zvi Boger María C. Veiga Christian Kennes

PII: S0304-3894(16)30233-3  
DOI: <http://dx.doi.org/doi:10.1016/j.jhazmat.2016.03.018>  
Reference: HAZMAT 17530

To appear in: *Journal of Hazardous Materials*

Received date: 17-9-2015  
Revised date: 25-2-2016  
Accepted date: 5-3-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Modelling the Removal of Volatile Pollutants under Transient Conditions in a Two-Stage Bioreactor Using Artificial Neural Networks**
