Investigation on propagation mechanism of large scale mine gas explosions

Cheng Wang, Yongyao Zhao, Emmanuel Kwasi Addai

PII: S0950-4230(17)30668-X

DOI: [10.1016/j.jlp.2017.07.011](https://doi.org/10.1016/j.jlp.2017.07.011)

Reference: JLPP 3560

To appear in: *Journal of Loss Prevention in the Process Industries*

Received Date: 21 March 2017

Revised Date: 27 May 2017

Accepted Date: 25 July 2017

Please cite this article as: Wang, C., Zhao, Y., Addai, E.K., Investigation on propagation mechanism of large scale mine gas explosions, *Journal of Loss Prevention in the Process Industries* (2017), doi: 10.1016/j.jlp.2017.07.011.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Investigation on propagation mechanism of large scale mine gas explosions
