Title: Photocatalytic oxidation of high concentrated dye solutions enhanced by hydrodynamic cavitation in a pilot reactor

Authors: Yasemin Çalışkan, H. Cengiz Yatmaz, Nihal Bektaş

PII: S0957-5820(17)30246-X
DOI: <http://dx.doi.org/doi:10.1016/j.psep.2017.08.003>
Reference: PSEP 1134

To appear in: *Process Safety and Environment Protection*

Received date: 18-5-2017
Revised date: 21-7-2017
Accepted date: 2-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

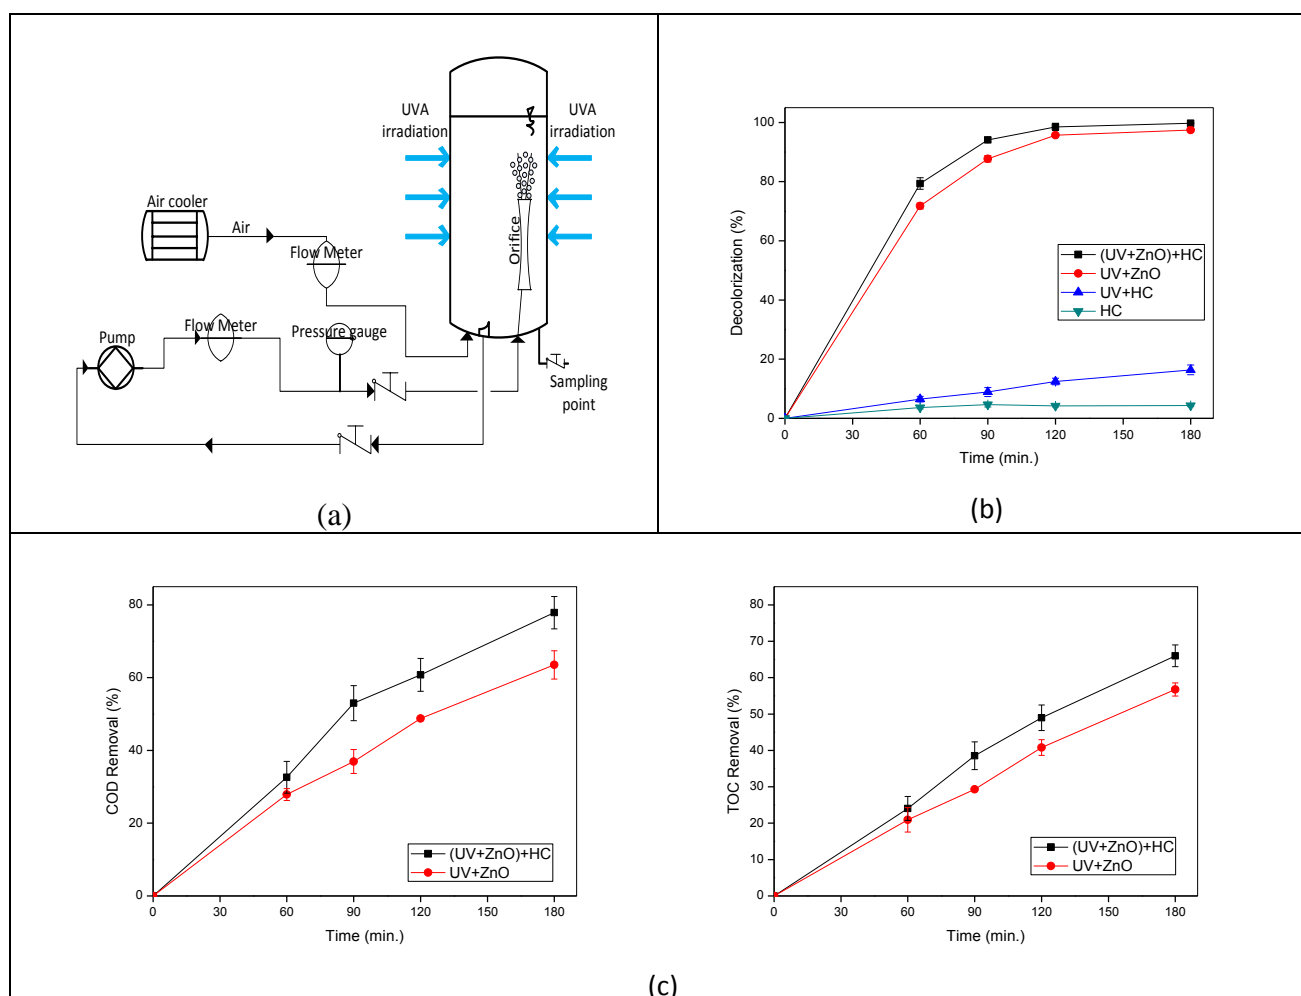

Photocatalytic Oxidation of High Concentrated Dye Solutions Enhanced by Hydrodynamic Cavitation in a Pilot Reactor

Yasemin Çalışkan*, H.Cengiz Yatmaz, Nihal Bektaş
