Title: Utilization of Dissolved Iron as Catalyst During Fenton-Like Oxidation of Pretreated Pulp Mill Effluent

Authors: Kanhaiya Lal, Anurag Garg

PII: S0957-5820(17)30308-7
DOI: <http://dx.doi.org/10.1016/j.psep.2017.09.005>
Reference: PSEP 1182

To appear in: *Process Safety and Environment Protection*

Received date: 17-5-2017
Revised date: 28-8-2017
Accepted date: 5-9-2017

Please cite this article as: Lal, Kanhaiya, Garg, Anurag, Utilization of Dissolved Iron as Catalyst During Fenton-Like Oxidation of Pretreated Pulp Mill Effluent. *Process Safety and Environment Protection* <http://dx.doi.org/10.1016/j.psep.2017.09.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Utilization of Dissolved Iron as Catalyst During Fenton-Like Oxidation of Pretreated Pulping Effluent
