

## Accepted Manuscript

Title: Adsorption of Cr(VI) from aqueous phase by high surface area activated carbon prepared by chemical activation with ZnCl<sub>2</sub>

Authors: Arvind Kumar, Hara Mohan Jena

PII: S0957-5820(17)30098-8  
DOI: <http://dx.doi.org/doi:10.1016/j.psep.2017.03.032>  
Reference: PSEP 1023

To appear in: *Process Safety and Environment Protection*

Received date: 4-8-2016  
Revised date: 18-3-2017  
Accepted date: 26-3-2017

Please cite this article as: Kumar, Arvind, Jena, Hara Mohan, Adsorption of Cr(VI) from aqueous phase by high surface area activated carbon prepared by chemical activation with ZnCl<sub>2</sub>. *Process Safety and Environment Protection* <http://dx.doi.org/10.1016/j.psep.2017.03.032>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Adsorption of Cr(VI) from aqueous phase by high surface area activated carbon prepared by chemical activation with $\text{ZnCl}_2$
