

Accepted Manuscript

Title: A Problem Decomposition Approach for Developing Total Water Networks in Lignocellulosic Biorefineries

Author: Athanassios Nikolakopoulos Antonis Kokossis

PII: S0957-5820(16)30302-0

DOI: <http://dx.doi.org/doi:10.1016/j.psep.2016.12.007>

Reference: PSEP 935

To appear in: *Process Safety and Environment Protection*

Received date: 30-11-2015

Revised date: 9-12-2016

Accepted date: 12-12-2016

Please cite this article as: Nikolakopoulos, Athanassios, Kokossis, Antonis, A Problem Decomposition Approach for Developing Total Water Networks in Lignocellulosic Biorefineries. *Process Safety and Environment Protection* <http://dx.doi.org/10.1016/j.psep.2016.12.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A Problem Decomposition Approach for Developing Total Water Networks in
Lignocellulosic Biorefineries**

Athanassios Nikolakopoulos¹, Antonis Kokossis

*School of Chemical Engineering, National Technical University of Athens, Heroon Polytechniou 9,
Athens 15780, Greece*
