Title: Development of microstructure and evolution of rheological characteristics of a highly concentrated emulsion during emulsification

Authors: B.K. Sharu, George P. Simon, Wenlong Cheng, Johann Zank, Arup R. Bhattacharyya

PII: S0927-7757(17)30410-7
DOI: <http://dx.doi.org/doi:10.1016/j.colsurfa.2017.04.070>
Reference: COLSUA 21582

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 28-2-2017
Revised date: 27-4-2017
Accepted date: 27-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Development of microstructure and evolution of rheological characteristics of a highly concentrated emulsion during emulsification
