

## Accepted Manuscript

Title: Characterization of fullereneol-protein interactions and an extended investigation on cytotoxicity

Authors: Li-Yun Yang, Si-Yu Hua, Zhi-Qiang Zhou, Guan-Chao Wang, Feng-Lei Jiang, Yi Liu

PII: S0927-7765(17)30332-6  
DOI: <http://dx.doi.org/doi:10.1016/j.colsurfb.2017.05.065>  
Reference: COLSUB 8594

To appear in: *Colloids and Surfaces B: Biointerfaces*

Received date: 5-1-2017  
Revised date: 2-5-2017  
Accepted date: 26-5-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Characterization of fullerene-protein interactions and an extended investigation on cytotoxicity

Graphical Abstract

The adsorption of proteins reduced fullerene-induced cytotoxicity in human normal gastric epithelial cells.
