Permeation of probe molecules into alginate microbeads: Effect of salt and processing

P. van Leusden, G.J.M. den Hartog, A. Bast, M. Postema, E. van der Linden, L.M. C. Sagis

PII: S0268-005X(17)30732-4
DOI: 10.1016/j.foodhyd.2017.06.028
Reference: FOOHYD 3957
To appear in: *Food Hydrocolloids*
Received Date: 26 April 2017
Revised Date: 07 June 2017
Accepted Date: 21 June 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Permeation of probe molecules into alginate
2 microbeads: Effect of salt and processing
