Electric Fields within Clay Materials: How to Affect the Adsorption of Metal Ions

Xiong Li, Hang Li, Gang Yang

PII: DOI: Reference:	S0021-9797(17)30440-X http://dx.doi.org/10.1016/j.jcis.2017.04.040 YJCIS 22252
To appear in:	Journal of Colloid and Interface Science
Received Date:	7 February 2017
Revised Date:	5 April 2017
Accepted Date:	9 April 2017

Please cite this article as: X. Li, H. Li, G. Yang, Electric Fields within Clay Materials: How to Affect the Adsorption of Metal Ions, *Journal of Colloid and Interface Science* (2017), doi: http://dx.doi.org/10.1016/j.jcis.2017.04.040

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
