Porous CoFe_2O_4 nanocubes derived from metal-organic frameworks as high-performance anode for sodium ion batteries

Xiaojie Zhang, Dongsheng Li, Guang Zhu, Ting Lu, Likun Pan

PII: S0021-9797(17)30372-7

DOI: <http://dx.doi.org/10.1016/j.jcis.2017.03.104>

Reference: YJCIS 22201

To appear in: *Journal of Colloid and Interface Science*

Received Date: 20 January 2017

Revised Date: 16 March 2017

Accepted Date: 26 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Porous CoFe₂O₄ nanocubes derived from metal-organic
frameworks as high-performance anode for sodium ion batteries**
