

Accepted Manuscript

Molecular interactions in high conductive gel electrolytes based on low molecular weight gelator

Michał Bielejewski, Andrzej Łapiński, Oleg Demchuk

PII: S0021-9797(16)30936-5
DOI: <http://dx.doi.org/10.1016/j.jcis.2016.11.059>
Reference: YJCIS 21787

To appear in: *Journal of Colloid and Interface Science*

Received Date: 23 September 2016
Revised Date: 14 November 2016
Accepted Date: 15 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Molecular interactions in high conductive gel electrolytes based on low molecular weight gelator
