Development and characterization of electrospayed *Alyssum homolocarpum* seed gum nanoparticles for encapsulation of D-limonene

Khadije Khoshakhlagh, Arash Koocheki, Mohebbat Mohebbi, Alireza Allafchian

PII: S0021-9797(16)30945-6
DOI: <http://dx.doi.org/10.1016/j.jcis.2016.11.067>
Reference: YJCIS 21795

To appear in: *Journal of Colloid and Interface Science*

Received Date: 6 October 2016
Revised Date: 13 November 2016
Accepted Date: 19 November 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Development and characterization of electrosprayed *Alyssum homolocarpum* seed gum nanoparticles for encapsulation of D-limonene
