Nanoclay assisted electrochemical exfoliation of pencil core to high conductive graphene thin-film electrode

Kunfeng Chen, Dongfeng Xue, Sridhar Komarneni

PII: S0021-9797(16)30783-4
DOI: <http://dx.doi.org/10.1016/j.jcis.2016.10.028>
Reference: YJCIS 21661

To appear in: *Journal of Colloid and Interface Science*

Received Date: 22 September 2016
Revised Date: 12 October 2016
Accepted Date: 14 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Nanoclay assisted electrochemical exfoliation of pencil core to high
conductive graphene thin-film electrode**
