Title: Innovative use of drinking water treatment solids for heavy metals removal from desalination concentrate: Synergistic effect of salts and natural organic matter

Authors: Lu Lin, Xuesong Xu, Charalambos Papelis, Pei Xu

PII: S0263-8762(17)30095-3
DOI: <http://dx.doi.org/doi:10.1016/j.cherd.2017.02.009>
Reference: CHERD 2572

To appear in:

Received date: 14-12-2016
Revised date: 25-1-2017
Accepted date: 12-2-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Innovative use of drinking water treatment solids for heavy metals removal from desalination concentrate: synergistic effect of salts and natural organic matter

Lu Lin, Xuesong Xu, Charalambos Papelis, Pei Xu*
