

Accepted Manuscript

Title: Experimental and CFD studies of power consumption in the agitation of highly viscous shear thinning fluids

Authors: Marti Cortada-Garcia, Valentina Dore, Luca Mazzei, Panagiota Angeli

PII: S0263-8762(17)30070-9
DOI: <http://dx.doi.org/doi:10.1016/j.cherd.2017.01.018>
Reference: CHERD 2547

To appear in:

Received date: 19-7-2016
Revised date: 21-12-2016
Accepted date: 13-1-2017

Please cite this article as: Cortada-Garcia, Marti, Dore, Valentina, Mazzei, Luca, Angeli, Panagiota, Experimental and CFD studies of power consumption in the agitation of highly viscous shear thinning fluids. Chemical Engineering Research and Design <http://dx.doi.org/10.1016/j.cherd.2017.01.018>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental and CFD studies of power consumption in the agitation of highly viscous shear thinning fluids
