

Author's Accepted Manuscript

Composite Membrane with Electrospun Multiscale-
Textured Surface for Robust Oil-Fouling
Resistance in Membrane Distillation

Deyin Hou, Zhangxin Wang, Kunpeng Wang, Jun
Wang, Shihong Lin

PII: S0376-7388(17)30974-2
DOI: <https://doi.org/10.1016/j.memsci.2017.10.017>
Reference: MEMSCI15644

To appear in: *Journal of Membrane Science*

Received date: 5 April 2017
Revised date: 2 September 2017
Accepted date: 8 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Composite Membrane with Electrospun
Multiscale-Textured Surface for Robust Oil-Fouling
Resistance in Membrane Distillation**

Revised Manuscript

Submitted to *Journal of Membrane Science*
