Limiting Extractable Energy from Pressure Retarded Osmosis with Different Pretreatment Costs for Feed and Draw Solutions

Haifeng Zhang, Wenjuan Yang, Ken Rainwater, Lianfa Song

PII: S0376-7388(17)31733-7
DOI: <http://dx.doi.org/10.1016/j.memsci.2017.09.030>
Reference: MEMSCI15568

To appear in: *Journal of Membrane Science*

Received date: 16 June 2017
Revised date: 7 September 2017
Accepted date: 9 September 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Limiting Extractable Energy from Pressure Retarded Osmosis with Different Pretreatment Costs for Feed and Draw Solutions
