

## Author's Accepted Manuscript

The effects of iCVD film thickness and conformality on the permeability and wetting of MD membranes

Amelia T. Servi, Elena Guillen-Burrieza, David M. Warsinger, William Livernois, Katie Notarangelo, Jihad Kharraz, John H. Lienhard, Hassan A. Arafat, Karen K. Gleason

PII: S0376-7388(16)31859-2  
DOI: <http://dx.doi.org/10.1016/j.memsci.2016.10.008>  
Reference: MEMSCI14794

To appear in: *Journal of Membrane Science*

Received date: 3 May 2016  
Revised date: 22 September 2016  
Accepted date: 5 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
