Facilitated transport membranes by incorporating graphene nanosheets with high zinc ion loading for enhanced CO₂ separation

Dongdong Peng, Shaofei Wang, Zhizhang Tian, Xingyu Wu, Yingzhen Wu, Hong Wu, Qingping Xin, Jianfeng Chen, Xingzhong Cao, Zhongyi Jiang

PII: S0376-7388(16)30985-1
DOI: <http://dx.doi.org/10.1016/j.memsci.2016.09.040>
Reference: MEMSCI14761

To appear in: *Journal of Membrane Science*

Received date: 14 July 2016
Revised date: 9 September 2016
Accepted date: 24 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and a review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
