

## Accepted Manuscript

Investigation of chemical-less UVC/VUV process for advanced oxidation of sulfamethoxazole in aqueous solutions: Evaluation of operational variables and degradation mechanism

Mahsa Moradi, Gholamreza Moussavi

PII: S1383-5866(17)31839-7

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.08.006>

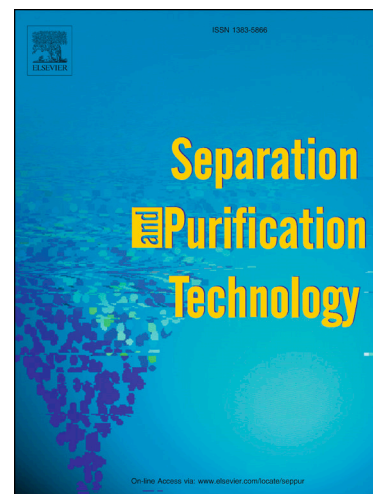

Reference: SEPPUR 13948

To appear in: *Separation and Purification Technology*

Received Date: 8 June 2017

Revised Date: 18 July 2017

Accepted Date: 3 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigation of chemical-less UVC/VUV process for advanced  
oxidation of sulfamethoxazole in aqueous solutions: Evaluation of  
operational variables and degradation mechanism

Mahsa Moradi, Gholamreza Moussavi
