

Accepted Manuscript

Membrane condenser configurations for water recovery from waste gases

Francesca MACEDONIO, Adele BRUNETTI, Giuseppe BARBIERI, Enrico DRIOLI

PII: S1383-5866(16)31693-8
DOI: <http://dx.doi.org/10.1016/j.seppur.2017.03.009>
Reference: SEPPUR 13595

To appear in: *Separation and Purification Technology*

Received Date: 12 September 2016
Revised Date: 9 March 2017
Accepted Date: 9 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
