Valorization of Aluminum Waste as a Heterogeneous Catalyst for Activation of Oxone for Sulfate radical-based Advanced Oxidation Process

Kun-Yi Andrew Lin, Jia-Ying Lin, Pei-Yu Li

PII: S1383-5866(17)30335-0

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.05.033>

Reference: SEPPUR 13746

To appear in: *Separation and Purification Technology*

Received Date: 30 January 2017

Revised Date: 28 April 2017

Accepted Date: 15 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Valorization of Aluminum Waste as a
Heterogeneous Catalyst for Activation of Oxone
for Sulfate radical-based Advanced Oxidation
Process
