Membrane fouling, chemical cleaning and separation performance assessment of a chlorine-resistant nanofiltration membrane for water recycling applications

Moe Ma Ma Tin, Anioke George, Osamu Nakagoe, Shuji Tanabe, Hitoshi Kodamatani, Long D. Nghiem, Takahiro Fujioka

PII: S1383-5866(17)31334-5
DOI: <http://dx.doi.org/10.1016/j.seppur.2017.07.080>
Reference: SEPPUR 13937

To appear in: *Separation and Purification Technology*

Received Date: 27 April 2017
Revised Date: 22 June 2017
Accepted Date: 30 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Membrane fouling, chemical cleaning and separation performance assessment
of a chlorine-resistant nanofiltration membrane for water recycling
applications**

Revised manuscript submitted to

Separation and Purification Technology
