Confined and In-situ Zeolite Synthesis: A Novel Strategy for Defect Reparation over Dense Pd Membranes for Hydrogen Separation

Jiafeng Yu, Jixin Zhang, Chun Bao, Hui Li, Hengyong Xu, Jian Sun

PII: S1383-5866(17)30496-3

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.04.035>

Reference: SEPPUR 13697

To appear in: *Separation and Purification Technology*

Received Date: 13 February 2017

Revised Date: 21 April 2017

Accepted Date: 23 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Confined and In-situ Zeolite Synthesis: A Novel Strategy for Defect
Reparation over Dense Pd Membranes for Hydrogen Separation**
