

## Accepted Manuscript

A novel single step synthesis and surface functionalization of iron oxide magnetic nanoparticles and thereof for the copper removal from pigment industry effluent

S. Hepziba Suganthi, K. Ramani

PII: S1383-5866(17)31523-X

DOI: <http://dx.doi.org/10.1016/j.seppur.2017.07.059>

Reference: SEPPUR 13916

To appear in: *Separation and Purification Technology*

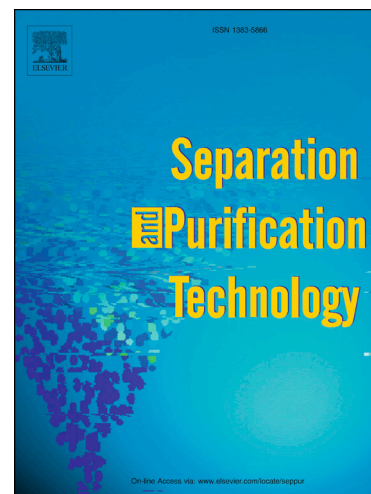

Received Date: 12 May 2017

Revised Date: 18 July 2017

Accepted Date: 21 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A novel single step synthesis and surface functionalization of iron oxide magnetic nanoparticles and thereof for the copper removal from pigment industry effluent**

S. Hepziba Suganthi and K. Ramani\*
