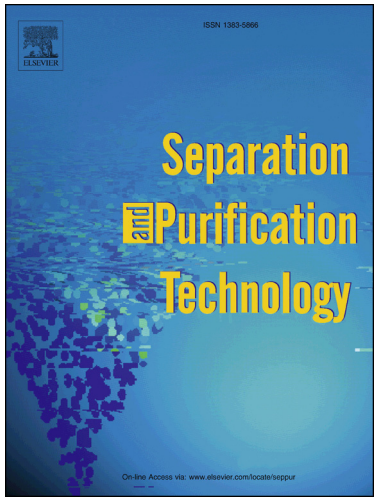
Accepted Manuscript



One-dimensional Modeling of Pervaporation Systems using a Semi-Empirical Flux Model

Muhammad Tahir Ashraf, Jens Ejbye Schmidt, Joanna Kujawa, Wojciech Kujawski, Hassan A. Arafat

PII: S1383-5866(16)31079-6
DOI: http://dx.doi.org/10.1016/j.seppur.2016.10.043
Reference: SEPPUR 13313

To appear in: *Separation and Purification Technology*

Received Date: 26 July 2016
Revised Date: 24 October 2016
Accepted Date: 24 October 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
