Research Paper

Experimental Characterization of an Additively Manufactured Heat Exchanger for Dry Cooling of Power Plants

Martinus A. Arie, Amir H. Shooshtari, Michael M. Ohadi

PII: S1359-4311(17)36325-1

DOI: <https://doi.org/10.1016/j.applthermaleng.2017.09.140>

Reference: ATE 11197

To appear in: *Applied Thermal Engineering*

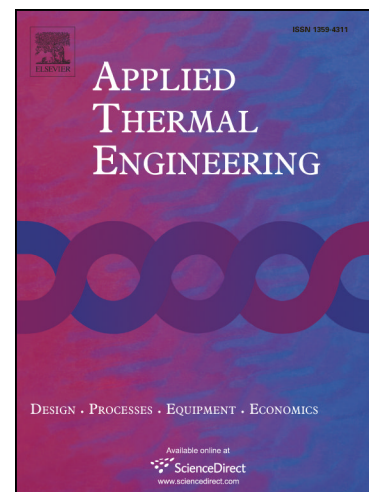

Received Date: 27 June 2016

Revised Date: 23 September 2017

Accepted Date: 30 September 2017

Please cite this article as: M.A. Arie, A.H. Shooshtari, M.M. Ohadi, Experimental Characterization of an Additively Manufactured Heat Exchanger for Dry Cooling of Power Plants, *Applied Thermal Engineering* (2017), doi: <https://doi.org/10.1016/j.applthermaleng.2017.09.140>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental Characterization of an Additively Manufactured Heat Exchanger for Dry Cooling of Power Plants
