Improving cold start, combustion and emission characteristics of a lean burn spark ignition natural gas engine with multi-point hydrogen injection

Lei Zhu, Z.Y. He, Zhen Xu, Zhan Gao, Ang Li, Zhen Huang

PII: S1359-4311(17)32318-9
DOI: <http://dx.doi.org/10.1016/j.applthermaleng.2017.04.023>
Reference: ATE 10171

To appear in: *Applied Thermal Engineering*

Received Date: 19 April 2016
Revised Date: 1 March 2017
Accepted Date: 6 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Improving cold start, combustion and emission characteristics of a lean burn spark ignition natural gas engine with multi-point hydrogen injection
