Research Paper

Heat transfer and energy storage performance of steam methane reforming in a tubular reactor

Qinyuan Yuan, Rong Gu, Jing Ding, Jianfeng Lu

PII: S1359-4311(16)34406-4

DOI: <http://dx.doi.org/10.1016/j.applthermaleng.2017.06.044>

Reference: ATE 10563

To appear in: *Applied Thermal Engineering*

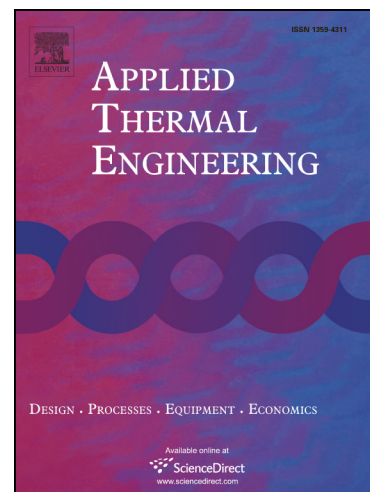

Received Date: 28 December 2016

Revised Date: 5 June 2017

Accepted Date: 9 June 2017

Please cite this article as: Q. Yuan, R. Gu, J. Ding, J. Lu, Heat transfer and energy storage performance of steam methane reforming in a tubular reactor, *Applied Thermal Engineering* (2017), doi: <http://dx.doi.org/10.1016/j.applthermaleng.2017.06.044>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A Manuscript Entitled

**Heat transfer and energy storage performance of steam  
methane reforming in a tubular reactor**

by

Qinyuan Yuan, Rong Gu, Jing Ding, Jianfeng Lu\*

School of Engineering, Sun Yat-Sen University, Guangzhou, Guangdong, 510006,  
China

Submitted to
