Experimental study on the effects of fin pitches and tube diameters on the heat transfer and fluid flow characteristics of a fin punched with curved delta-winglet vortex generators

Xiang Wu, Zhi-Min Lin, Song Liu, Mei Su, Liang-Chen Wang, Liang-Bi Wang

PII: S1359-4311(16)34113-8

DOI: <http://dx.doi.org/10.1016/j.applthermaleng.2017.03.072>

Reference: ATE 10076

To appear in: *Applied Thermal Engineering*

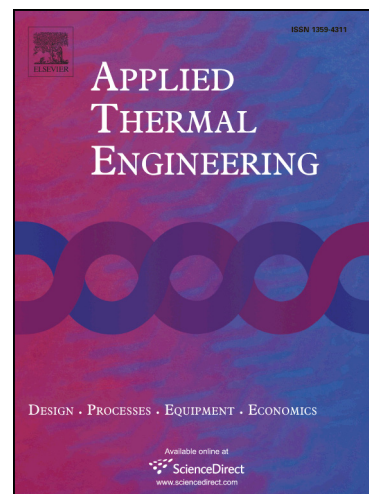

Received Date: 14 December 2016

Revised Date: 24 February 2017

Accepted Date: 16 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental study on the effects of fin pitches and tube diameters on the heat transfer and fluid flow characteristics of a fin punched with curved delta-winglet vortex generators
