Research Paper

Impact of helical baffle structure on heat transfer performance of vertical condensers

Yaping Chen, Shifan Yang, Jiafeng Wu, Jiahao Zhou

PII: DOI: Reference:	S1359-4311(16)32137-8 http://dx.doi.org/10.1016/j.applthermaleng.2016.12.118 ATE 9738
To appear in:	Applied Thermal Engineering
Received Date:	4 October 2016
Revised Date:	25 December 2016
Accepted Date:	26 December 2016

Please cite this article as: Y. Chen, S. Yang, J. Wu, J. Zhou, Impact of helical baffle structure on heat transfer performance of vertical condensers, *Applied Thermal Engineering* (2016), doi: http://dx.doi.org/10.1016/j.applthermaleng.2016.12.118

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of helical baffle structure on heat transfer performance of vertical condensers
