Title: The effect of supercooling of the melt on the semicrystalline morphology of PA 66

Authors: Anne M. Gohn, Alicyn M. Rhoades, Nichole Wonderling, Tim Tighe, René Androsch

PII: S0040-6031(17)30181-8
DOI: <http://dx.doi.org/doi:10.1016/j.tca.2017.07.012>
Reference: TCA 77794

To appear in: *Thermochemica Acta*

Received date: 18-5-2017
Revised date: 10-7-2017
Accepted date: 18-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Submitted to Thermochemica Acta as Communication

The effect of supercooling of the melt on the semicrystalline morphology of PA 66
