Title: The effect of oxygen concentration on the non-isothermal combustion of coal

Authors: Jun Deng, Qingwei Li, Yang Xiao, Hu Wen

PII: S0040-6031(17)30102-8

DOI: <http://dx.doi.org/doi:10.1016/j.tca.2017.04.009>

Reference: TCA 77728

To appear in: *Thermochimica Acta*

Received date: 19-2-2017

Revised date: 7-4-2017

Accepted date: 24-4-2017

Please cite this article as: Jun Deng, Qingwei Li, Yang Xiao, Hu Wen, The effect of oxygen concentration on the non-isothermal combustion of coal, *Thermochimica Acta*<http://dx.doi.org/10.1016/j.tca.2017.04.009>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The effect of oxygen concentration on the non-isothermal combustion of coal

Jun Deng^{a,b}, Qingwei Li^a, Yang Xiao^{a,b,*}, Hu Wen^{a,b}
