

## Accepted Manuscript

Title: Test and improvement of the cyclic stability of oxalic acid dihydrate for thermal energy storage

Author: Lipeng Han Shaolei Xie Guixiang Ma Jinhe Sun  
Yongzhong Jia Yan Jing

PII: S0040-6031(16)30292-1  
DOI: <http://dx.doi.org/doi:10.1016/j.tca.2016.10.016>  
Reference: TCA 77628

To appear in: *Thermochemica Acta*

Received date: 13-6-2016  
Revised date: 26-10-2016  
Accepted date: 29-10-2016

### Highlights:

- Oxalic acid dihydrate as phase change material for TES was studied.
- Cyclic stability of oxalic acid dihydrate was determined.
- PEGs were added to improve the cyclic stability of oxalic acid dihydrate.
- The best sample was oxalic acid dihydrate + 2.5% PEG 6000.
