Investigation on biomass nitrogen-enriched pyrolysis: Influence of temperature

Wei Chen, Yingquan Chen, Haiping Yang, Kaixu Li, Xu Chen, Hanping Chen

PII: S0960-8524(17)31839-4

DOI: <https://doi.org/10.1016/j.biortech.2017.10.022>

Reference: BITE 19063

To appear in: *Bioresource Technology*

Received Date: 6 September 2017

Revised Date: 30 September 2017

Accepted Date: 5 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

[Title Page]

Investigation on biomass nitrogen-enriched pyrolysis: Influence of temperature

Wei Chen, Yingquan Chen, Haiping Yang*, Kaixu Li, Xu Chen, Hanping Chen

State Key Laboratory of Coal Combustion, School of Power and Energy

Engineering, Huazhong University of Science and Technology, 430074 Wuhan,

China
