Effectiveness of piggery waste treatment using microbial fuel cells coupled with elutriated-phased acid fermentation

K. Chandrasekhar, Young-Ho Ahn

PII: S0960-8524(17)31326-3

DOI: <http://dx.doi.org/10.1016/j.biortech.2017.08.021>

Reference: BITE 18630

To appear in: *Bioresource Technology*

Received Date: 30 May 2017

Revised Date: 31 July 2017

Accepted Date: 4 August 2017

Please cite this article as: Chandrasekhar, K., Ahn, Y-H., Effectiveness of piggery waste treatment using microbial fuel cells coupled with elutriated-phased acid fermentation, *Bioresource Technology* (2017), doi: <http://dx.doi.org/10.1016/j.biortech.2017.08.021>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Effectiveness of piggery waste treatment using microbial fuel cells coupled**
2 **with elutriated-phased acid fermentation**
