This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fed-batch production of green coconut hydrolysates for high-gravity second-generation bioethanol fermentation with cellulosic yeast

Jimmy Soares¹, Mekonnen M. Demeke^{2,3}, Miet Van de Velde⁴, Maria R. Foulquié-Moreno^{2,3}, Dorien Kerstens⁵, Bert F. Sels⁵, Alex Verplaetse⁴, Antonio Alberto Ribeiro Fernandes¹, Johan M. Thevelein^{2,3}, Patricia Machado Bueno Fernandes^{1*}
