Review

Molecular characterization of CO₂ sequestration and assimilation in microalgae and its biotechnological applications

Baojun Zhu, Gu Chen, Xupeng Cao, Dong Wei

PII: S0960-8524(17)30874-X

DOI: <http://dx.doi.org/10.1016/j.biortech.2017.05.199>

Reference: BITE 18225

To appear in: *Bioresource Technology*

Received Date: 5 April 2017

Revised Date: 29 May 2017

Accepted Date: 30 May 2017

Please cite this article as: Zhu, B., Chen, G., Cao, X., Wei, D., Molecular characterization of CO₂ sequestration and assimilation in microalgae and its biotechnological applications, *Bioresource Technology* (2017), doi: <http://dx.doi.org/10.1016/j.biortech.2017.05.199>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Molecular characterization of CO₂ sequestration and assimilation in microalgae and its
2 biotechnological applications
