This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A revised manuscript (BITE-D-17-01415R1) submitted to *Bioresource Technology*

(All the changes made are marked with yellow highlight)

## Title

Improvement of outdoor culture efficiency of cyanobacteria by over-expression of stress tolerance genes and its implication as bio-refinery feedstock

Hsiang-Yen Su<sup>a,b,c</sup>, Hsiang-Hui Chou<sup>a,d</sup>, Te- Jin Chow<sup>a</sup>, Tse-Min Lee<sup>b,c,e</sup>, Jo-Shu Chang<sup>f,g</sup>, Wen-Lii Huang<sup>h</sup> and Hsien-Jung Chen<sup>b,c,d\*</sup>
