

## Accepted Manuscript

Enhancing thermophilic co-digestion of nitrogen-rich substrates by air side-stream stripping

Chiara Pedizzi, Juan M. Lema, Marta Carballa

PII: S0960-8524(17)30775-7

DOI: <http://dx.doi.org/10.1016/j.biortech.2017.05.113>

Reference: BITE 18139

To appear in: *Bioresource Technology*

Received Date: 17 March 2017

Revised Date: 16 May 2017

Accepted Date: 18 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Enhancing thermophilic co-digestion of nitrogen-rich substrates by air side-stream  
stripping**
