Determination of volumetric gas–liquid mass transfer coefficient of carbon monoxide in a batch cultivation system using kinetic simulations

Nulee Jang, Muhammad Yasin, Shinyoung Park, Robert W. Lovitt, In Seop Chang

PII: S0960-8524(17)30662-4

DOI: <http://dx.doi.org/10.1016/j.biortech.2017.05.023>

Reference: BITE 18049

To appear in: *Bioresource Technology*

Received Date: 21 February 2017

Revised Date: 30 April 2017

Accepted Date: 3 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Determination of volumetric gas–liquid mass transfer coefficient of carbon monoxide in a batch cultivation system using kinetic simulations
