One-pot chemo-enzymatic synthesis of furfuralcohol from xylose by sequential solid acid-catalyzed dehydration and whole-cell bioreduction

Yu-Cai He, Chun-Xia Jiang, Ji-Wei Jiang, Jun-Hua Di, Feng Liu, Yun Ding, Qing Qing, Cui-Luan Ma

PII: S0960-8524(17)30608-9
DOI: <http://dx.doi.org/10.1016/j.biortech.2017.04.101>
Reference: BITE 17996

To appear in: *Bioresource Technology*

Received Date: 17 March 2017
Revised Date: 24 April 2017
Accepted Date: 25 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
